

APPLICATIONS

Eni Rotra Bike 80W-90 is a lubricant designed and developed for the lubrication requirements of motorcycle transmissions. The product has EP (Extreme Pressures) characteristics that make it suitable for use under particularly severe operating conditions.

CUSTOMER ADVANTAGES

- The formulation of **Eni Rotra Bike 80W-90** is characterized by high chemical stability and resistance to oxidative phenomena, as a result the product is capable of keeping both the bearings and the gear teeth in a good preservation status.
- **Eni Rotra Bike 80W-90** provides excellent protection against corrosion of all the parts of the transmission. The product has viscosimetric characteristics that allow perfect lubrication of the transmission elements in all operating conditions.
- It is also recommended to use this product in transmissions for which the Manufacturers prescribe lubricants that meet a API GL-3 performance level.
