

# Power Steering Cleaner (PSTC)

## Power Steering Cleaner

### Product properties

Highly active special cleaning formula to remove contaminations throughout the whole system. Because of special lubrication components all parts are protected while the system is being cleaned.

### Area of application

In all power steering systems, differentials, differential gears

### Application

Before exchanging drain the amount of power steering fluid which will be added as cleaner. Fill the cleaner into the system. For perfect cleaning results, turn the steering 25 times to the left and to the right side as far as it will go. Afterwards drain the power steering liquid completely and refill new liquid in accordance to the manufacturer's instructions.

### Consumption

100 ml for 3 ltr. Oil. Mix Ratio 1:30

### Reaction time

Approx. 5-10 Minutes

### Technical data

Physical state: liquid

Colour: blue

Odour: aromatic

Initial boiling point and boiling range: 180 - 220 °C

Flashpoint: 63 °C

Ignition temperature: > 200 °C

Vapour pressure (at 68 °F): 20 hPa

Density at 68 °F: 0,79 - 0,82 g/cm<sup>3</sup>

Water resistant

Available sizes	Item no.	PU
100ml	P2041	24
